

The Finnish Philatelist

Subject Matter Index • Vols. 1-11
November 2006
ISSN 1536-8807

A newsletter published quarterly by the Finnish Study Group of the Scandinavian Collectors Club

Editor's Message:

In the past several years I have received a number of requests for back copies of the newsletter from individual collectors and several philatelic libraries. I have not been able to fulfill these requests for several reasons; at the beginning we had a very small press run and copies of most of the first fifteen to twenty issues ran out a long time ago as new readers requested back issues.

Now all the back issues of the newsletter have been saved to the PDF format and are included on this two disk set.

The postal censorship supplements published in 1998 and 1999 are not indexed here and they are not included on the PDF versions of the newsletter on these CDs. A complete listing of all postal censoring marks are now available on a CD, most recently updated in April 2006. To order your copy, contact the editor of TFP at: Rpquinby@AOL.com

Also on CD is the complete series of articles on the m/75 issues written by Heikki Reinikainen, many of which, but not all, appeared in earlier editions of the newsletter. This CD is in full color and the color reproduction of the stamps is excellent. The m/75 CD is available from Scandinavian dealer Jay Smith of Snow Camp, North Carolina, the Editor or Mr. Reinikainen. Your inquiries and orders are invited. See the February 2006 issue of TFP for further information.

The detailed index begins on page 2. I hope you find it useful. Your comments and suggestions are always welcome

Roger P Quinby, Editor
The Finnish Philatelist

All of TFP newsletter supplements on WWI postal censorship have been extensively revised and updated. The revisions include several hundred new extreme dates for censor stamp and resealing tape usages, listing of newly reported marks and additional information and listings of censor stamp sub-types. The complete set of articles and lists of censor stamps, censor mark sub-types and censor tapes are now available on a CD. The latest revised listing of the CD is dated April 2006. All inquiries concerning the CDs should be directed to the Editor of TFP.
