

**SCANDINAVIA COLLECTORS CLUB LIBRARY (Denver, CO.):** It's mostly about the collection of several thousand books, periodicals, audio-visual, and digital materials at the active and growing Scandinavian Collectors Club Library in Denver. But some interesting and attractive postal-related memorabilia has accumulated at the library over the years as well. Roger Cichorz, a member of the volunteer SCC Library Committee, displays some of these Scandinavia collectibles, including a flag flown by mail boats servicing the Jutland peninsula in Denmark, Iceland's national flag, and a mail bag from Norway. Cichorz is modeling a Danish mail carrier's wool coat, one of two donated over the years. Smaller items in the photo include a Danish mail slot cover for depositing periodicals and an honorary membership plaque given to the late Roger Schnell who was a president of SCC (among other honors) and after whom the SCC Library is formally named. Further information about the Scandinavian Collectors Club, including recent acquisitions by the library and its online catalog, is available at [www.scc-online.org](http://www.scc-online.org).
