## WASHINGTON, D.C. INTERNATIONAL STAMP EXHIBITION

All serious collectors or research specialists of Scandinavian Philately should affiliate with the SCANDINAVIAN COLLECTORS CLUB, a national organization that for more than 30 years has promoted and encouraged all things philatelic pertaining to any of the Scandinavian countries. You are invited at a nominal fee to join with more than 600 members in our organization where mutual respect and cooperation predominate in the fellowship of all phases of Scandinavian philatelic studies.

Active membership involves an initial fee of \$1.00, with annual dues of \$3.00 (U.S.\$) per annum. Members receive the POSTHORN once every three months, and in addition from time to time, any additional monographs as they are released such as:

Greenland Postmarks Since 1938  
Norway - Postmarks of the Local Posts  
Norwegian Railway & Steamship Parcel Stamps  
Sweden - Pre-Adhesive Postal History

To you as a visitor at SIPEX, Sixth International Philatelic Exhibition, in Washington, we welcome you to our S.C.C. Lounge, and our representatives will be glad to assist you with specific information and an application blank. We would welcome the opportunity such as this of having you join our group, which numbers among its membership most of the great and distinguished Philatelists and Specialists in the Scandinavian countries - many of which are in attendance at SIPEX.

CHICAGO 43, ILLINOIS

The SCANDINAVIAN COLLECTORS CLUB was founded at metropolitan New York City in 1935 by 6 Finnish collectors in the Bronx as the "Finnish-American Stamp Club", and S.C.C. adopted its present name in February, 1943 at the suggestion of Harry L. Lindquist, publisher of STAMPS magazine. Our quarterly magazine "POSTHORN" sent to all members appeared first on the scene in November, 1943 with Carl E. Pelander (1872-1966) as its first Editor, when our membership stood at 42 men and women. We are thus one of the older specialty clubs in this country - we are a non-profit Illinois corporation since 1960.

We are primarily a specialist group whose purpose is to study the stamps of Denmark, Danish West Indies, Greenland, Finland, Iceland, Norway and Sweden. In addition to chronicling all new issues with background data, each issue of the POSTHORN contains one of more research articles relating to printings, variations, and historical notes. Your own collections become more vital as these articles are absorbed into the pages of your albums.

The SCANDINAVIAN COLLECTORS CLUB is organized on an International basis with the bulk of membership within the U. S. and Canada, but many of the Western European countries are well represented also.

## S.C.C. CHAPTER ORGANIZATIONS

The optimum benefit from S.C.C. membership accrues to those fortunate enough to personally share their knowledge and interests in personal contact through the media of an area chapter. Each local chapter usually meets monthly except for summer months. Perhaps you can attend one of these groups - or better yet, get other S.C.C. members in your area together and form a chapter yourselves!
