SVEND YORT

1908-1981

It is most appropriate that the SCC Library Index be dedicated to the untiring efforts of Svend Yort, researcher, writer, library contributor, and in his roles as president and holder of various SCC offices. His tireless pursuit for knowledge, and his willingness to share his skills, is testimony to the debt this Society owes him.

No catalog of Svend Yort's interests can do him justice. His employment with the Chesapeake & Potomac Telephone Company led him to participate in numerous professional engineering societies, and to a sideline interest of telephones on stamps. His Danish birth and Scandinavian heritage blossomed in his membership in the original Scandinavian Collectors Club of New York, and in SCC, and this was followed by his authoritative articles in the POST-HORN and other publications. His insistence on having proper philatelic sources available for study helped in the formation and growth of this Library. This dedication is small testimony of our feelings and our high regard for him as a person, philatelist, and friend.
